UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF TEXAS
AUSTIN DIVISION

COALITION FOR INDEPENDENT
TECHNOLOGY RESEARCH,

   Plaintiff,

  v.

GREG ABBOTT, in his official capacity as
Governor of the State of Texas,

STEVEN C. MCCRAW, in his official
capacity as Director and Colonel of the Texas
Department of Public Safety,

AMANDA CRAWFORD, in her official
capacity as Executive Director of the Texas
Department of Information Resources and
Chief Information Officer of Texas,

DALE RICHARDSON, in his official
capacity as Chief Operations Officer of the
Texas Department of Information Resources,

ASHOK MAGO, LAURA WRIGHT, LINDY
RYDMAN, CARLOS MUNGUIA, MARY
DENNY, MILTON B. LEE, MELISA
DENIS, DANIEL FEEHAN, and JOHN
SCOTT JR., in their official capacities as
members of the Board of Regents of the
University of North Texas System, and

MICHAEL WILLIAMS, in his official
capacity as Chancellor of the University of
North Texas System,

   Defendants.

Civil Action No. 1:23-cv-783

DECLARATION OF DR. IOANA LITERAT

DECLARATION OF DR. IOANA LITERAT

I, Ioana Literat, declare:

1.   I understand that the Coalition for Independent Technology Research, the Plaintiff in the above-captioned matter, has moved the court for a preliminary injunction, and I am submitting this declaration in support of its motion. I have personal knowledge of the facts set forth herein and, if called to testify as a witness, I could do so competently under oath.

Career and Background

2.   I am Associate Professor of Communication, Media and Learning Technologies Design at Teachers College, Columbia University. Additionally, I am also the Associate Director of the Media and Social Change Lab, and Affiliated Faculty at the Digital Futures Institute at Teachers College.

3.   I received a Bachelor of Arts degree in Film and Media Culture from Middlebury College in 2009, a Master's degree in Communication from the University of Southern California in 2013, and a Ph.D. in Communication from the University of Southern California in 2015. I was appointed as an Assistant Professor of Communication, Media and Learning Technologies Design at Teachers College, Columbia University in 2015, and was promoted to Associate Professor with tenure in 2021.

4.   I have published over 50 peer-reviewed articles in top journals within the field of communication, in addition to numerous book chapters, conference proceedings and a forthcoming book on social media and young people's political expression. My areas of expertise are social media and online communities, youth digital practices, online political expression, and online creativity. Much of my recent and current work focuses on TikTok as a key site for self-expression and socialization. *See, e.g.*, Ioana Literat, *"Teachers Act Like We're Robots": TikTok as a Window Into Youth Experiences of Online Learning During COVID-19*, 7 Am. Educ. Rsch. Assoc. Open

(2021), https://doi.org/10.1177/2332858421995537; Ioana Literat & Neta Kligler-Vilenchik, *TikTok as a Key Platform for Youth Political Expression: Reflecting on the Opportunities and Stakes Involved*, 9 Soc. Media & Soc'y (2023), https://doi.org/10.1177/20563051231157595; Ioana Literat, Lillian Boxman-Shabtai & Neta Kligler-Vilenchik, *Protesting the Protest Paradigm: TikTok as a Space for Media Criticism*, 28 Int'l J. Press/Pols (2022), https://doi.org/10.1177/19401612221117481; Catherine Cheng Stahl & Ioana Literat, *#GenZ on TikTok: The Collective Online Self-portrait of the Social Media Generation*, J. Youth Stud. (2022), https://doi.org/10.1080/13676261.2022.2053671.

5.   I was one of the first researchers to begin studying TikTok (beginning my research on its predecessor app, musical.ly, in 2016) and have built a strong reputation as a go-to source for academic expertise on the platform, as evidenced by my peer-reviewed publications on TikTok, as well as my numerous media invitations and interviews detailed below.

6.   I have shared my expertise on social media—and TikTok in particular—in over 60 media appearances and press interviews, for outlets including *The New York Times, The Washington Post, The Atlantic, CNN, BBC, Newsweek* and *Wired*. My perspectives on TikTok have also been sought by journalists from foreign media outlets, including in Spain, France, Austria, Switzerland, Canada, Australia, Mexico and Romania. Additionally, I have been invited to speak to the press on the specific topic of the TikTok ban, including most recently for *The Washington Post, NBC News, Ars Technica,* and *Bloomberg.*

7.   I have served as a consultant on matters related to social media and youth digital practices for a wide range of clients, including technology companies, nonprofit organizations, market research firms, and educational institutions.

8.   I am a member of the International Communication Association (ICA), the Association of Internet Researchers (AoIR), and the National Association for Media Literacy Education (NAMLE), where I served on the Board of Directors between 2020–2022.

9.   A copy of my curriculum vitae is attached to this declaration.

TikTok: Overview, Affordances, Audiences

10.   TikTok is a popular social media platform that allows users to create and share short videos. It has gained tremendous popularity, particularly among younger audiences, since its launch in 2016. TikTok is known for its easy-to-use video editing tools, creative filters, and a vast library of music and sounds that users can incorporate into their videos. The platform offers a wide range of content categories, including humor, fashion, beauty, cooking, DIY, and more.

11.   TikTok was created by Zhang Yiming, the founder of a Chinese technology company called ByteDance. Initially, ByteDance launched a similar app called Douyin in September 2016 exclusively for the Chinese market. In order to expand its reach to international audiences, ByteDance launched a version of the app called TikTok in September 2017, which quickly became popular in markets outside of China. TikTok's breakthrough moment came in 2018 when it merged with another social media app called musical.ly, a lip-syncing app that had gained considerable traction, particularly among teenagers in the United States. By merging with musical.ly, TikTok was able to expand its user base and integrate the features and content from both platforms, solidifying its position as a major player in the social media landscape.

12.   In its current form, TikTok provides multiple affordances for creators, allowing them to express their creativity, engage with a global audience, and potentially build a following. These affordances for creators include:

a. <u>Short-form video creation</u>. TikTok's primary format is that of short videos. Videos typically range between 15–60 seconds, with the maximum recording length currently being three minutes. This brevity allows creators to quickly capture the audience's attention and convey their content in a concise and engaging manner. It encourages creativity within the constraints of a short timeframe.

b. <u>User-friendly video editing tools</u>. TikTok offers a range of user-friendly video editing tools, effects, filters, and features that creators can use to enhance their videos. These tools enable creators to add text, stickers, special effects, transitions, and filters to make their content visually appealing and unique.

c. <u>Vast music and sound library</u>. TikTok has an extensive library of licensed music, sound bites, and audio clips that creators can incorporate into their videos. This vast selection allows creators to add popular songs, trending sounds, or custom audio to enhance the mood or theme of their content.

d. <u>Discoverability through the "For You" feed</u>. TikTok's algorithm-driven content recommendation system, showcased in the "For You" feed, is a significant boon for creators. When a creator's content resonates with users or aligns with their interests, the algorithm can amplify its reach, leading to increased visibility and potential growth in followers. If creators' content catches on and gains traction, it can quickly spread across and beyond the platform, potentially reaching a large audience and boosting the creator's visibility.

e. <u>Engagement with other creators and audiences</u>. TikTok facilitates interaction with other users' content via the duet and stitch features, which allow creators to incorporate others' content into their own videos, respond to it, build on it, or add

their own twist. TikTok also provides various engagement features for creators to connect with their audience. Users can like, comment, and share videos, enabling creators to receive feedback, build a community, and foster dialogue with their followers. The app also offers live streaming options, enabling real-time interaction and Q&A sessions with viewers.

      f.   <u>Monetization opportunities</u>. TikTok offers a Creator Fund program that allows eligible creators to earn money based on their video views. Additionally, creators can use the platform to showcase their talents, gain wider recognition, or even leverage their TikTok presence to secure partnerships or sponsored content opportunities, potentially generating income from their TikTok activity.

13.   TikTok also offers affordances for audiences that make the platform engaging and entertaining. These affordances for audiences include:

      a.   <u>Diverse bite-sized content</u>. TikTok's short-form video format makes it easy for audiences to consume a wide range of content quickly. Users can scroll through a variety of videos, spanning different topics, genres, and styles. With TikTok's algorithm helping users discover content related to their specific interests, audiences can find communities and content focused on specific (and often quite niche) hobbies, interests, subcultures, and more.

      b.   <u>Personalized content discovery</u>. TikTok's algorithm analyzes user behavior, engagement, and interests to curate a personalized "For You" feed. This feed presents content that aligns with the user's preferences, making it easier for audiences to discover and consume content that they are likely to engage with. The algorithm learns from user behavior and so becomes more effective over time.

c. Interactivity and engagement. TikTok encourages active engagement from its audience. Users can like, comment on, and share videos, allowing for interaction with creators and fellow viewers. The app's engagement features facilitate conversations, feedback, and community-building among users. TikTok's content often showcases everyday people sharing their experiences, thoughts, and emotions. This relatability creates a sense of connection between creators and audiences, fostering a supportive and empathetic community.

d. Global exposure and cultural diversity. As an immensely popular global platform, TikTok has a vast and diverse user base from around the world. Audiences can explore content created by individuals from different cultures, backgrounds, and perspectives, providing exposure to a variety of voices and fostering cross-cultural understanding.

14. TikTok is popular globally, with users from diverse backgrounds. The app's user base includes a broad range of individuals, including content creators, influencers, celebrities, and everyday users seeking entertainment and creative expression.

15. Globally, the app boasts three billion downloads, one billion global active users, and 50 million daily active users. It is the #1 downloaded app in more than 40 countries, available in 150+ markets and 35+ languages. TikTok is especially popular with young people: 42% of its global user base is aged 18–24, and 31% is aged 25–34. TikTok users spend a daily average of 1.5 hours on the app. *See* Stacey McLachlan, *50+ Important TikTok Stats Marketers Need to Know in 2023*, Hootsuite (Apr. 13, 2023), https://perma.cc/E8DN-V8CK. In the U.S., TikTok has 150 million monthly active users, and is especially popular with young people. *See* David Shepardson,

TikTok Hits 150 Million U.S. Monthly Users, Up From 100 Million in 2020, Reuters (Mar. 20, 2023), https://perma.cc/8U56-9WEZ.

16.   The cultural impact of TikTok extends beyond its active users. The platform has become a hub for the latest pop culture trends, memes and viral content, which often spread beyond TikTok to other social media platforms, online spaces, or media outlets.

TikTok as a Medium for Important Speech

17.   While TikTok gained early popularity for relatively frivolous content like dance challenges, lip-synchs and memes, the platform is now much more than that. Today, TikTok offers a very broad range of content and enables users to find entertainment, inspiration, education, and connection across a wide array of interests and topics.

18.   Political expression and activism. TikTok has become a key platform for political expression and activism. Creators and commenters use TikTok to address important topics, share personal stories, advocate for causes, and educate others about various social, environmental and political matters. To give just a few recent examples, TikTok has played a key role in awareness-raising and mobilization around Black Lives Matter, reproductive justice, and environmental issues. In particular, as I've shown in my research, TikTok is a valuable space for *youth* political expression and activism, enabling young people to experiment with their political voice in richly creative ways. *See, e.g.*, Ioana Literat & Neta Kligler-Vilenchik, *TikTok as a Key Platform for Youth Political Expression: Reflecting on the Opportunities and Stakes Involved*, Soc. Media & Soc'y (2023), https://doi.org/10.1177/20563051231157595; Ioana Literat, Lillian Boxman-Shabtai & Neta Kligler-Vilenchik, *Protesting the Protest Paradigm: TikTok as a Space for Media Criticism*, 28 Int'l J. Press/Pols (2022), https://doi.org/10.1177/19401612221117481.

19.   A significant appeal of TikTok is the way it fosters a sense of relatability among young people, which is crucial when it comes to civic education and political socialization. In forming their attitudes about political topics, young people care deeply about what their peers think—and a main place where their peers are talking about politics today is TikTok. What is more, by enabling users to connect to an assumed like-minded audience, TikTok encourages a form of political expression that is quintessentially collective—a vital element for the success of social movements.

20.   Education and learning: TikTok is also frequently used for educational purposes, with creators sharing informative and instructional content on topics such as science, history, language learning, mental health, personal finance, and more. TikTok's short-video format allows users to both produce and consume educational content in an engaging and accessible way. This educational content includes both traditional academic content (such as explaining challenging mathematical concepts to young audiences) and non-academic educational content, like do-it-yourself (DIY) tutorials and helpful tips (e.g., home improvement projects, cooking recipes, and "life hacks"). Indeed, as evidence of its educational significance and reach, TikTok is used as an educational platform not just by regular users, but also by established institutions such as museums, health organizations, and universities.

21.   Music, art, and creativity: TikTok's roots lie in music, and the platform continues to be a key space for musicians and music-loving audiences; in fact, many songs and artists have gained popularity thanks to TikTok's viral potential. In addition to music, TikTok is an important hub for art and creativity more broadly. It hosts a vibrant community of artists, filmmakers, comedians, and other creative users, and provides unique insight into the contemporary creative sphere by allowing these artists to share not only their final creative products, but also their creative

process (e.g., via time-lapses, Q&As with the audience, or tutorials). Significantly, given its popularity, TikTok also shapes aesthetic trends and even gives rise to new genres and artistic movements.

22.   Journalism. TikTok is increasingly being used as a platform for news consumption and dissemination. Worldwide, 32.4% of TikTok users use the app to keep up-to-date with current events, and in the U.S., a quarter of adults under 30 say they get their news on TikTok regularly. *See* Stacey McLachlan, *50+ Important TikTok Stats Marketers Need To Know in 2023*, Hootsuite (Apr. 13, 2023), https://perma.cc/E8DN-V8CK; Emily A. Vogels, Risa Gelles-Watnick & Navid Massarat, *Teens, Social Media and Technology 2022*, Pew Rsch. Ctr. (Aug. 10, 2022), https://perma.cc/M87W-GTH7.

23.   According to Reuters' newly released 2023 Digital News Report, with traditional news media in a state of crisis, TikTok is the fastest-growing social media platform for news. Many established news organizations and journalists have embraced TikTok as a way to reach younger audiences and share news in a more engaging format. Furthermore, beyond news organizations, TikTok is a key platform for citizen journalism as well, allowing users to share real-time news and events (e.g., protests, natural disasters, social movements, and other significant events) while offering firsthand accounts and a diversity of angles. Additionally, given the increasing prevalence of misinformation in both legacy media and on social media, there are also TikTok creators and organizations dedicated to fact-checking, debunking false or misleading information, or breaking down complex news stories for TikTok audiences. *See* Ioana Literat, Lillian Boxman-Shabtai & Neta Kligler-Vilenchik, *Protesting the Protest Paradigm: TikTok as a Space for Media Criticism*, 28 Int'l J. Press/Pols (2022), https://doi.org/10.1177/19401612221117481.

For Users, TikTok Is Not Interchangeable with Other Platforms

24.   TikTok is not fungible with other platforms—for creators or for users. Several things differentiate it from other social media platforms, and contribute to TikTok's unique user experience and the specific community that has been cultivated on the app. For example:

    a. <u>Features and functionality</u>. TikTok's design and technical affordances are different from other platforms. While other social media platforms may offer similar features and functionalities, the specific combination of TikTok's affordances for creators and audiences (as described above), along with the unique community and content ecosystem on TikTok, make it distinct and not easily interchangeable with other platforms. Indeed, it is telling that Instagram, Facebook, and several other social media platforms have introduced features that try to mimic the appeal of TikTok (i.e., most notably, Instagram Reels or YouTube Shorts, which are both similarly based around short-form video), yet the majority of users continue to prefer TikTok and spend significantly more time there.

    b. <u>Audience and monetization</u>. Content creators who have established a significant presence on TikTok may face challenges in transitioning their audience and monetization opportunities to a new platform. They have often built their brand and following specifically on TikTok, and recreating that presence on another platform can be a complex and uncertain process. If content creators move to a new platform, it is unlikely that they would be able to migrate their audience and rebuild a similar level of engagement and reach on a different platform.

    c. <u>User demographics</u>. Content on TikTok reaches a very specific audience, in line with its younger, global user base. As noted above, TikTok has gained significant

popularity among younger audiences, particularly teenagers and young adults. This demographic dominance has shaped the content and culture of the platform and would not simply transfer elsewhere or be found on a different platform.

d. <u>Algorithm</u>. TikTok's recommendation algorithm, which plays a significant role in shaping users' experiences on the app, is also platform-specific and unlike the algorithms that shape engagement on other platforms. In particular, TikTok's algorithm puts more emphasis on "discovery" content, which de-emphasizes content from accounts users follow and makes it possible for niche content to find a wide audience. The "For You" feed personalizes content recommendations based on user behavior, preferences, and interactions; this tailored approach to content discovery sets TikTok apart.

e. <u>Communities and networks.</u> Last but not least, as a growing body of research has attested, TikTok is not just a platform for individual self-expression, but also for connections, community-building and collective expression. TikTok users organize themselves into particular communities—many of them quite niche and unique to the platform—and create networks (of varying degrees of closeness/looseness) that are not transferrable. These communities and networks are the lifeblood of the platform for many users, and are incredibly important not only for socialization but also for other core aspects like identity formation, activism, learning, etc.

Research About TikTok

25.   As I have explained above, TikTok is a distinctive and indeed unique platform that now plays a very significant role in informing and shaping public discourse and culture. That the platform is so influential, and that it is used by so many people around the world, means that

independent research about the platform—including about its data-collection practices, content-moderation practices, and ranking algorithms—is not merely legitimate but absolutely necessary.

  26. I declare under penalty of perjury that the foregoing is true and correct.

Respectfully submitted,

Ioana Literat

AWARDS AND FELLOWSHIPS

Top Paper Award (2023)
Intercultural Communication Division
International Communication Association
For the paper: Mapping the Information Landscapes of Sudanese Youth: Implications for Media Literacy Education [co-authored with Abubakr Abdelbagi]

Faculty Collaboration Grant (2022-2023)
$20,000
Teachers College, Columbia University
For the research project: "Suspending Closure: Toward Multimodal and Arts-Based Futures in Research and Public Scholarship"

Provost's Investment Fund Award (2021-2022)
$20,000
Teachers College, Columbia University
For the research project: "Learning about Fake News through Online Play: The Design, Development and Evaluation of a Digital Game for Media Literacy Education"

Early Career Award (2020)
Media, Learning & Culture Special Interest Group
American Educational Research Association (AERA)

Spencer Foundation Research Grant (2019-2021)
$49,619
Principal Investigator
For the research project: "Youth Collective Political Expression on Social Media: Communication Within and Across Political Differences"

Provost's Investment Fund Award (2019-2020)
$20,000
Teachers College, Columbia University
For the research project: "Fake News, Misinformation and Media Literacy in Today's Digital Media Ecosystem"

Richard Lounsbery Foundation Research Grant (2019-2020)
$100,000
Co-Principal Investigator

For the research project: "STEAMnasiums for Teacher Learning: A Research, Development, and Demonstration Project"

Academically Related Federal Work Study Faculty Award (2019-2020)
Teachers College, Columbia University
In support of media literacy research at the Media & Social Change Lab (MASCLab).

Best Empirical Paper (2019)
Media, Learning & Culture Special Interest Group
American Educational Research Association (AERA)
"Gamifying Fake News: Playful Approaches to News Literacy Education for Middle School Students"

Dean's Faculty Diversity Research Award (2018-2019)
Teachers College, Columbia University
For the research project: "From Ethical to Equitable Design: Amplifying Underrepresented Youth Voices in Digital Technology Design"

First Place (Social Sciences and Humanities) (2014)
University of Southern California Graduate Research Symposium
Awarded the top prize out of all USC graduate research projects, as determined by an interdisciplinary panel of faculty judges

Best Romanian Student Abroad (North America) (2014)
Liga Studentilor Romani din Strainatate [League of Romanian Students Abroad]
Bestowed by the Romanian government, and awarded during a special ceremony at the Romanian Parliament

Oxford Internet Institute Summer Doctoral Program Award (2013)
University of Oxford, UK

Research and Travel Awards (2010, 2011, 2012, 2013)
Annenberg School for Communication and Journalism, University of Southern California

GSG Conference Travel Award (2012, 2013)
University of Southern California Graduate Student Senate

HASTAC Fellowship (2012-2013)
Humanities, Arts, Science and Technology Advanced Collaboratory (HASTAC)

Phi Kappa Phi Student Recognition Award (2012)
University of Southern California
Awarded by the President of the University of Southern California for outstanding achievements in research

Top Student Paper Award (2012)
Visual Communication Division
International Communication Association

Provost's PhD Fellowship (2010-2015)
University of Southern California
The university's most prestigious PhD fellowship, guaranteeing 5 years of financial support

First prize, Global Health Awareness Art Competition (2012)
Institute for Global Health
University of Southern California

The Modern Story Fellowship (2009-2010)
The Modern Story, San Francisco

David Goldberg Prize (2009)
Middlebury College
Awarded by the Department of Film and Media Culture, for excellence in the study of film and media

Phi Beta Kappa Academic Honors Award (2009)
Phi Beta Kappa Society

Davis United World College Foundation Scholarship (2005-2009)
Middlebury College
Merit-based scholarship providing full financial support for all 4 years of undergraduate study

M.M. Young Foundation Scholarship (2003-2005)
Lester B. Pearson United World College

Kwok-Leung Li Foundation Scholarship (2003-2005)
Lester B. Pearson United World College

Pro Juventute Recognition Award (2003)
Mayor's Office, Timisoara, Romania
Awarded by the Mayor of Timisoara for outstanding academic achievements

LABS AND RESEARCH GROUPS

Media and Social Change Lab (MASClab) (2015-present)
Associate Director

Digital Futures Institute (2021-present)
Affiliated Faculty

Global Citizens Club (2017-present)
Faculty Mentor

Visual Research Center (Fall 2017-2022)
Affiliated Faculty

COURSES TAUGHT AT TEACHERS COLLEGE

MSTU 4016: The History of Communication

MSTU 4028: Technology & Culture

MSTU 5102: Art in the Digital Age: Implications of New Media Technologies for Culture and Creativity

MSTU 5199: Digital Research Methods: Qualitative Analyses of Online Data

MSTU 5606: Readings in Communication Theory and Social Thought

MSTU 6532: Seminar in CMLTD: Art, Media & Communication

DOCTORAL ADVISING

Primary advisor for:

- Sonia Kim (in progress)
- Shell Avenant (in progress)
- Abu Abdelbagi (in progress)
- Monica Meng (in progress)
- Charlotte Price (in progress)
- Paul Joseph Stengel (defended Spring 2020). "The Inputs, Mediators, and Outcomes of Collaborative MOOC Development Teams"
- Candace Bratton (defended Fall 2019). "Lurking, Learning, and Leading: Educator Participation in Twitter Edchats"
- Sandra Markus (defended Spring 2019). "Through the Eye of a Needle: Craftivism as an Emerging Mode of Civic Engagement and Cultural Participation"
- Alena Cybart-Persenaire (defended Spring 2017). "Resurrecting Dinosaurs: How Print Journalism Production Using Mobile Phones Impacts Marginalized Students in a High School Classroom"

Secondary reader for:

- James Shanahan (in progress)
- Kyle Matthew Oliver (defended Spring 2022). "Becoming Tapestry: A Multimodal Ethnographic Podcast Exploring Storytelling and Belonging in a Faith-Adjacent Foster Youth Mentoring Network"
- AL Liou (defended Spring 2022). "Equals, Relatives, and Kin: Growing Intergenerational Solidarity between Youth Activists and their Adult Accomplices"

Chairperson / 3rd reader for:

- Zsuzsanna Kozmane-Fejes (defended Fall 2022). "The History of Periodicals in Hungarian Secondary Mathematics Education"

- Pamela Booth (defended Spring 2019). "Behaviour Analysis Catalyst for Perspective Transformation and Perceptions of Interpersonal Effectiveness"
- Edward Getman (defended Fall 2019). "Age, Task Characteristics, and Acoustic Indicators of Engagement: Investigations into the Validity of a Technology-Enhanced Speaking Test for Young Language Learners"
- Jason Gaines (defended Spring 2018). "Music Technology and the Conservatory Curriculum"
- Ciaran Friel (defended Spring 2018). "How Activity Monitor Use is Associated with Motivation and Physical Activity Behavior"
- Safiyah Satterwhite (defended Fall 2017). Ground Up Leadership: An Online Course Designed To Aid Education Entrepreneurs In Launching New Ventures
- Shawn McCann (defended Spring 2017). "Mobile Learning for Flow: Use of Mobile Devices to Develop Flow Traits"
- Joanne Duncan-Carnesciali (defended Spring 2016). An Evaluation of the Innovation of E-Health Featuring a Diabetes Self-Management Program Delivered Using Avatar-Based Technology

RELEVANT WORK EXPERIENCE

The Modern Story Digital Storytelling Program (2009-2010)
Hyderabad, India
Field Coordinator and Digital Storytelling Instructor

- Received a fellowship to set up a digital filmmaking course in Indian public schools
- Designed and implemented a curriculum focused on the theme of social justice, teaching underprivileged Indian youth to use cameras and media software to tell stories of local significance and share them with their communities
- Set up collaborations with local NGOs and hired local staff to increase sustainability

SERVICE TO THE COLLEGE, PROFESSION AND COMMUNITY

Service to Teachers College

- Artificial Intelligence and Pedagogy Working Group, 2023-present
- Rita Gold Center Director Search Committee, 2023
- CMLTD PhD Program - Proposal Lead, 2023
- CMLTD Lecturer Search Committee, 2023
- Center for History & Education (CHE) Dissertation Fellowship Committee, 2023
- EPSA Politics & Education Faculty Search Committee, 2022-2023
- Faculty Salary Committee, 2022-2023
- Provost's Advisory Council, 2020-2022
- Program Adjacencies Group, Fall 2020
- Faculty Advisory Committee (FAC), 2017-2021
- Department of External Affairs (DEA) Faculty Liaison Committee, 2016-2021
- Medalist Advisory Committee, 2019
- Faculty Development Advisory Committee (FDAC), 2016-2018
- 21st Century Civics Roundtable series, 2017
- Faculty Review Committee, Research Dissertation Fellowship Awards, 2015-2018
- Faculty Review Committee, Dean's Grants for Student Research, 2015-2018

Service to the Profession

- Member, Association of Internet Researchers (AoIR) Ethics Working Group, 2016 - present
- Program Chair of Media, Culture & Learning (MCL) Special Interest Group, American Educational Research Association (AERA), 2020-2022
- Board Member, National Association for Media Literacy Education (NAMLE), 2019 - 2021
- Editorial Board Member, *Media and Communication,* 2019-present
- Editorial Board Member, *Journal of Media Literacy Education,* 2019-present
- Reviewer for multiple journals (*New Media & Society; International Journal of Communication; Information, Communication & Society; Qualitative Research; Political Communication; Youth & Society; Journalism & Mass Communication Quarterly; Journal*

of Media Literacy Education; Learning, Media & Technology; Computers & Education; British Journal of Educational Technology; Visual Studies; Critical Arts; Digital Creativity) and conferences (International Communication Association, Association of Internet Researchers, American Educational Research Association)

Service to the Community

- Advisor, Public Arena Playbook, 2023-present
- Advisor, Local Civics, 2020-present
- Member, Fundatia CAESAR (the Center for Accessing the Expertise of Students and Alumni from Romania), 2015 - present
- Mentor, Blue Heron Foundation, 2012 - present
- Member, DemocracyReady NY Coalition. Center for Educational Equity, Teachers College. Core member of Media Literacy Committee, 2018-2020
- Parent Board, Red Balloon Early Childhood Center (2020-2021)

Professional Memberships

- International Communication Association (ICA)
- Association of Internet Researchers (AoIR)
- American Educational Research Association (AERA)
- National Association for Media Literacy Education (NAMLE)
